- Omission of one or more steps
- Failure to complete the pattern in a continuous performance, (hesitation, loss of balance)
- Incorrect technique
- Incorrect diagram

If a competitor fails to complete the pattern, they will be brought back to ready stance and dismissed. No score will be shown by the judges.

## **METHOD OF RECORDING SCORING**

Each judge will record their score on the score cards and on the command 'show' given by the senior judge, will immediately hold up the score cards and keep them in the position until the recorder acknowledges that all the scores have been recorded. The red score card will be held in the right hand and the blue card in the left. The recorder will then deduct the highest and the lowest scores given by the judges and total up the remaining three scores, this total is recorded as the competitor's score. In the event of a tie between two or more individual pattern competitors, the judges will select a further compulsory pattern to be performed by the tied competitors.

**It may be necessary to amalgamate any divisions without sufficient entrants. This will be done on the day of the event.**

  - i) Stepping out of the area twice (ie on the 2<sup>nd</sup>, 4<sup>th</sup>, 6<sup>th</sup> and every other subsequent occasion). A competitor is considered to have 'stepped out' when both feet fully cross the perimeter line.
  - ii) Loss of balance on each occasion (a competitor is considered to have lost balance when any part of the body other than the feet comes in contact with the floor)
  - iii) Grabbing any part of the opponent or their dobok after the referee's warning.
  - iv) Tripping or leg sweeping the opponent on every occasion.
  - v) Continuous "Blitzing" style punching (MAXIMUM THREE CONTINUOUS HAND TECHNIQUES)
  
- b) Disqualifications will be awarded by the referee for the following:
  - i) Intentional contact or unnecessary aggression
  - ii) Repeated one 'point away' offences
  - iii) Showing dishonour or disrespect to the officials, competitors, or the area

**\*\* NOTE:** When points are deducted by the referee, the corner judges must calculate this by adding them to the opponents score on their hand-held clickers.

## **CONTACT & INJURY - ALL SPARRING**

As detailed previously above, contact is penalised but if in the opinion of the referee a competitor steps forward into a technique, which otherwise should have been correctly focused, points will be awarded to the attacker as if it were a 'decisive blow'.

If a competitor is unable to continue in such a situation, the bout will be awarded to the attacker. In all other cases of unintentional and intentional contact, where a competitor is unable to continue, he/she will be awarded the bout. Subject to the referee's discretion.

## **ACCUMULATIVE DISQUALIFICATION –ALL SPARRING**

During a sparring competition, a referee may award an official warning for offences during the previous section headed 'Demerit points and disqualifications. Any competitor who receives 2 official warnings during the entire competition immediately upon receipt of the 2<sup>nd</sup> official warning **WILL** be disqualified.

The referee must announce to the competitor, corner judges and recorder that an official warning is being given by showing a yellow card. The recorder marks the official warning against the competitor's name on the competitor's list. Then before the start of the next and all subsequent bouts, the recorder will announce that the competitor is carrying an official warning.

Disqualification must be announced by the referee who will show a red card to the competitor, corner judges and recorder.

## **EXCESSIVE CONTINUOUS HAND ATTACKS (RULE CHANGE)**

The use of "Blitzing" style continuous hand techniques is not allowed. A maximum of three continuous hand techniques in any one combined attack are permitted.

## ***BOUT PROCEDURE - CONTINUOUS SPARRING***

The bout will commence with competitors on the start positions each with either a red or a blue waist marker. At the direction of the referee, the contestants bow in turn to the referee, and then to each other. The referee will start the sparring with the command 'si jak', the contestants continue to spar until the referee issues the command 'hye chyo' in order to call time or to issue an infringement warning. At this point the competitors return to the start positions before the bout is restarted. On completion of time, the timekeeper will ring a bell to warn the referee, but the bout only ends on the final command 'hye chyo' by the referee. The competitors are then instructed to bow to each other and then to the referee and await the result.

## ***BOUT PROCEDURE - POINT STOP SPARRING***

The bout will commence with competitors on the start positions each with either a red or a blue waist marker. At the direction of the referee, the contestants bow in turn to the referee, and then to each other. The referee will start the sparring with the command 'si jak', the contestants continue to spar until the referee stops the bout with the command 'hye chyo' if any judge indicates a clean technique has been scored. The other judges must immediately issue a signal (unsighted/no score/score). If any two from either the referee, mirror judge or umpire agree that the technique has been scored, an appropriate number of points will be awarded by the referee. Two out of the three officials must agree on the points scored for it to be registered. The ONLY exception to this rule will be the ability of the referee to override the two officials if he/she has definitely seen a score and the two officials are showing unsighted techniques. These points will be displayed by the recorder on either blue or red score cards and these cards will be situated at the recorders table for all to see. The red card will be on the right of the table and the blue card will be on the left side of the table. (The left and right being determined by the scorekeeper as he/she sits at the table). The officials should try to make their decisions as quickly as possible so that the bout continues at a reasonable pace. Any demerit points will be added onto the opponent's score. The person with the most points at the end of the bout is the winner.

## ***TIMING – POINT STOP SPARRING***

The clock is re-started on 'si jak' and continues until full time when the bell is rung. The clock is not stopped when the referee calls 'hye chyo'.

## ***SCORING & RESULT PROCEDURE - CONTINUOUS SPARRING***

The four corner judges will award points as they are seen by using hand held recorders (clickers) these to be clearly marked left hand clicker blue, right hand clicker red. On completion of the bout and after the bowing procedure, the referee will call show, at which time the corner judges will immediately hold in the air the clicker showing the highest score, in the event of a draw, both clickers are held up with the arms crossed.

At this point the referee himself will make a decision and then award the bout as either a win or a draw.

A win can only be awarded if 3 or more of the 5 judges including the referee award the bout one way.

Any less than this majority is awarded as a draw.

Should it become apparent that a competitor is being completely dominated by a superior opponent, the referee may after consultation with the corner judges, stop the bout early and award a win to the superior competitor. The result being announced as 'win by mismatch'.

# Appendix A

## International Team Event

### 1. Registration

All teams must be registered with the event organisers by the deadline announced during the tournament. Registration includes identifying all team members (including reserves) and their weight divisions.

Competitors will be allowed to fight in a division above the division they entered as an individual but cannot enter down into a lighter division.

### 2. Sparring Equipment

As per individual events.

### 3. Rules

Normal competition rules for individual sparring will apply.

### 4. The following rules apply for International Team Events:

- Before the start of a match, the teams must line up facing each other and the names and their divisions will be checked by the referee
- The Team Captain or Coach then steps forward and the Referee will perform a coin spin to determine which team should put up the first competitor
- The team who wins the coin spin will choose the weight division to be fought first and the opposing team must put forward their team member who matches that weight division
- The team who lost the original coin spin then chooses which division should fight next
- This choice of division then continues until all competitors in both teams have fought
- A win gives the team 2 points, and a draw (which unlike the individual bouts) counts as a result and will give both teams 1 point each
- Should both teams be equal on points after all fighters have fought, each team to put out their best fighter, the opposing team does not need to match
- 1. If the result is still a draw, then there will be an extension of 1 minute.  
2. If the result of the extra time is still a draw, then the referee will decide the winner

## 5. Other Rules

- Only one coach per team at the area
- All team members must be sat down, away from the designated areas boundaries
- If a team member is disqualified during a bout, then the opposing team receives 2 points
- A disqualified team member cannot partake in the rest of the event and cannot be replaced by another competitor
- Can you replace an injured team member? **NO**
- If an event medic says that the competitor cannot continue due to injury, this cannot be overruled by anyone
- If a team cannot submit all weight categories, e.g. They have no lightweight member. Then they can submit a team, but they would forfeit that match therefore giving the opposing team 2 points for the missed bout
- The preliminary bouts will consist of bouts will consist of 1 x 3 minute round and the final will consist of 2 x 2-minute rounds
